Thursday, 17 December 2015

Dear Parents,

Thank you for returning the homework questionnaires. We do value your feedback and it is important to us. We have uploaded the Questionnaire results onto the website for you to look at. Below is a brief summary:

- Majority of parents feel homework is important to their child's learning.
- Majority of parents are satisfied with the amount of homework that is provided for their children.
- Majority of parents feel the amount set is just right and the level of homework is just right for their child/ren.
- Majority of parents say their child enjoys their homework.
- Majority of parents feel the Must, Should and Could gives flexibility to their busy weekends.
- Parents have expressed that they would like maths homework at times and also craft type activities.
- Some parents have requested that homework isn't sent out on Fridays.

This term we will be giving pupils longer to do their homework and it will be sent out on Thursdays and will be required back into school the following Wednesday.

We will be alternating the homework with a 'Must, Could, Should' topic piece of work with a maths piece of work. Reception pupils will be provided with a maths activity in their homework book. The maths work will be online from Years 1- 6 and it is called MyMaths. Pupils will be given a password and login unique to them which can be accessed at home on a desktop or laptop computer. Pupils progress from their maths online homework will be monitored at school. Please see your child's teacher if you have any issues regarding this homework. Reading and spellings will be ongoing.

We hope your child enjoys the MyMaths activities and should you wish to discuss homework further then please come and see myself or your child's teacher.

Mrs Sonia John

Homework Questionnaire Results

1. How important do you think homework is to your child's learning?

Very important 37% Very Important + Important = 70%

Important 33%

Some importance 25%

No importance 4%
